

Discussion Question(s) - Module 1

Discussion Question 1

What is the most important organ or organ system of/in the human body? Please briefly explain/justify your choice (a few sentences should do). Please **post your response by 6:00 PM of Day 2 of the Module.**

Discussion Question 2

In video 1 you were introduced to physiological feedback loops as a means of maintaining homeostasis; both examples in the video showed negative feedback loops. Can you think of any examples of physiological feedback loops showing **positive** feedback? If so, what is your example? Please briefly explain/justify your response (a few sentences should do). Please **post your response by 6:00 PM of Day 4 of the Module.**
